

# STRABAG Portal for Suppliers – 360-degree supplier evaluation

## 1 360-degree supplier evaluation

In SPS, a project-dependent 360 degree supplier evaluation can be carried out by means of a questionnaire. You can rate STRABAG on the basis of your experience in project management.

The individual criteria can be rated with one to five stars; the average then appears as the overall rating. If a criterion cannot be rated, the field can be left blank.

The evaluation is requested by STRABAG. A supplier contact is selected to answer the questionnaire. Only this person can answer the questionnaire. After completion of the response, the questionnaire can no longer be viewed.

### 1.1 Start of the evaluation

You have a task in the *MY TASKS* box on the SPS start page to carry out a 360 degree assessment by use of a questionnaire.

Click on the pencil icon to start the task.

### 1.2 Execution of the evaluation

You can now rate STRABAG for each question using a *5-star scale* (from one star = poor to five stars = very good). The average of the individual ratings gives the overall rating.

Answering each question is mandatory (mandatory fields are marked with \*), but you can answer the questions in any order.

Clicking the *Next* button will display the next question category, clicking the *Previous* button will display the previous question category. The *Previous* button is only available from the second question category on the lower left side (see next picture).

The assessment is then completed by clicking the *Complete survey* button.

The completion of the assessment is confirmed by the system through a pop-up window.

In the *APPROVAL* box it can be seen that the approval of the assessment is still pending here. This is to be carried out by the assessment creator at STRABAG.

This concludes the evaluation on your page and you can go back to your SPS landing page by clicking on the STRABAG logo at the top left.

The task for the evaluation is now no longer available in the tile *MY TASKS*.
